

PROFESSIONAL SUMMARY

I integrate my passions for data, technology, and people to research and implement process improvements and workflow optimizations. My eclectic knowledge allows me to syncretize solutions across departments and translate technical information to general audiences. I have a proven track record of exceeding quotas, delivering exceptional client service, and leading teams to record-setting successes.

AREAS OF EXPERTISE

HTML, CSS, JavaScript, Node.js, C#, SQL, Python, PowerBI, Tableau, UX/UI, Research, Pattern Recognition

EMPLOYMENT HISTORY

Studio Engineer - Music Changing Lives, Mar 2025 - Present | *Education, Audio Engineering*

- Designed a 12-month curriculum to teach underserved youth to record, produce, mix, master, market, distribute, and perform original music

Library Page of Literacy - San Bernardino Public Library, Jan 2025 - Aug 2025 | *Education, UX/UI, Activism*

- Designed and led classes for adult English language learners to improve their literacy skills
- Guided learners to become published authors in the Crafton Hills College journal
- Addressed issues with ADA compliance by reviewing HTML code of over 500 pages on the library site per CA AB 1757

Senior Guest Services Rep - Yaamava Resort and Casino, Sep 2023 - May 2024 | *Customer Service, IT Operations*

- Consistently exceeded new member enrollment quota by 200 percent, averaging over 300 enrollments per month
- Reduced downtime by diagnosing and repairing guest service workstations, player card printers, and casino information kiosks, reducing calls to IT department and enhancing guest experience

Software Engineer - SecondSight.ai, 11/2021 - 12/2022 | *AWS, Node.js, SQL*

- Built an ETL pipeline to inject millions of client data records into alphabetized and collated SEO-optimized web pages
- Learned Node.js and Amazon Web Services on the job within 60 days
- Reduced pipeline runtime by 500 percent using an API and advanced SQL queries

Software Development Teaching Assistant - ElevenFifty Academy, 6/2021 - 1/2022 | *C#, SQL*

- Achieved above-average 96% pass rate for students in my cohort by guiding them through debugging, OOP concepts, and source control issues
- Created supplementary instructional videos to explain database concepts not covered in the course materials

Mortgage Escrow Team Lead - Allied Solutions, 8/2018 - 7/2021 | *Client Management, Business Analysis, UX/UI*

- Improved error rate by 80 percent and decreased new client onboarding time by 400 percent by developing and implementing automation into the client data integration process
- Enabled acquisition of over 20 new escrow clients by leading a collaborative project to increase the efficiency of the daily escrow workflow
- Conducted research surveys, led live demonstrations, and compiled reports to achieve mutual understanding among third-party business analysts, internal software and UX/UI developers, and escrow operations team

Shift Manager - Disc Replay, 4/2017 - 8/2018 | *Leadership, Customer Service, Inventory Management*

- Led store to highest-grossing month (December 2017) and year (2017) to date, allowing the owner to purchase a larger storefront and further increase sales
